DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 11-14, 21-24, drawn to an olefinic composition.

Group II, claim(s) 7-10, drawn to a process of making a copolymer.

Group III, claim(s) 15-20, 25, drawn to a thermoplastic elastomer composition.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. The common technical feature of a functionalized branched olefin copolymer made by reacting a maleated elastomer with an amine terminated olefin polymer is found in the prior art. Datta et al. (US 4999403) teaches graft copolymer compositions of an amine functionalized ethylene-olefin copolymer with maleated polypropylene grafted through the amine functionality (abstract; column 5, lines 50-68; column 6, lines 61-68; column 7, lines 41-58; column 8, lines 10-20). Therefore, since the cited common technical feature fails to define a contribution over prior art, hence, the common

Art Unit: 1796

technical feature does not amount to a special technical feature; therefore there is a lack of unity.

4. A telephone call was made to JAMES HOPPE on May 26, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ROBERT C. BOYLE whose telephone number is (571)270-7347. The examiner can normally be reached on Monday-Friday, 9:00AM-5:00PM Eastern.
